VISITOR RESTRICTION NOTIFICATION. PLEASE READ THIS ENTIRE NOTICE:

As COVID-19 (Coronavirus) diagnoses continue to rise in the United States and around the world, Gallatin Manor is committed to providing a safe and healthy environment for our residents, employees, partners and the greater community.

At this time there are no cases of Coronavirus at our facility or in the county. However, our facility provides care for one of the most vulnerable populations for COVID-19 risk and, as such, we are taking extra precautions to reduce this risk to our residents.

Effective immediately, we are restricting all visitors to our facility. Certain exception will be made on a case-by-case basis in consultation with the facility's administrator and infection preventionist. Additionally, only necessary vendors will be allowed to make deliveries and will be screened for symptoms of illness and other risk factors before allowed to enter.

We continue to closely monitor all Centers for Disease Control (CDC) and Illinois Department of Public Health (IDPH) advisories.

We understand this is an inconvenience and may result in a delay seeing your loved one. We appreciate your patience and understanding.

In addition, due to the fluidity of the situation and the need to potentially adjust our policies on a day-to-day basis, all future communications on this matter will be made via our Facebook page. Please monitor our facilities Facebook page for updates.
